

## CONDENSYN

### WATERLESS REFLUX CONDENSERS

CondensSyn and CondensSyn MINI - Waterless reflux condensers:

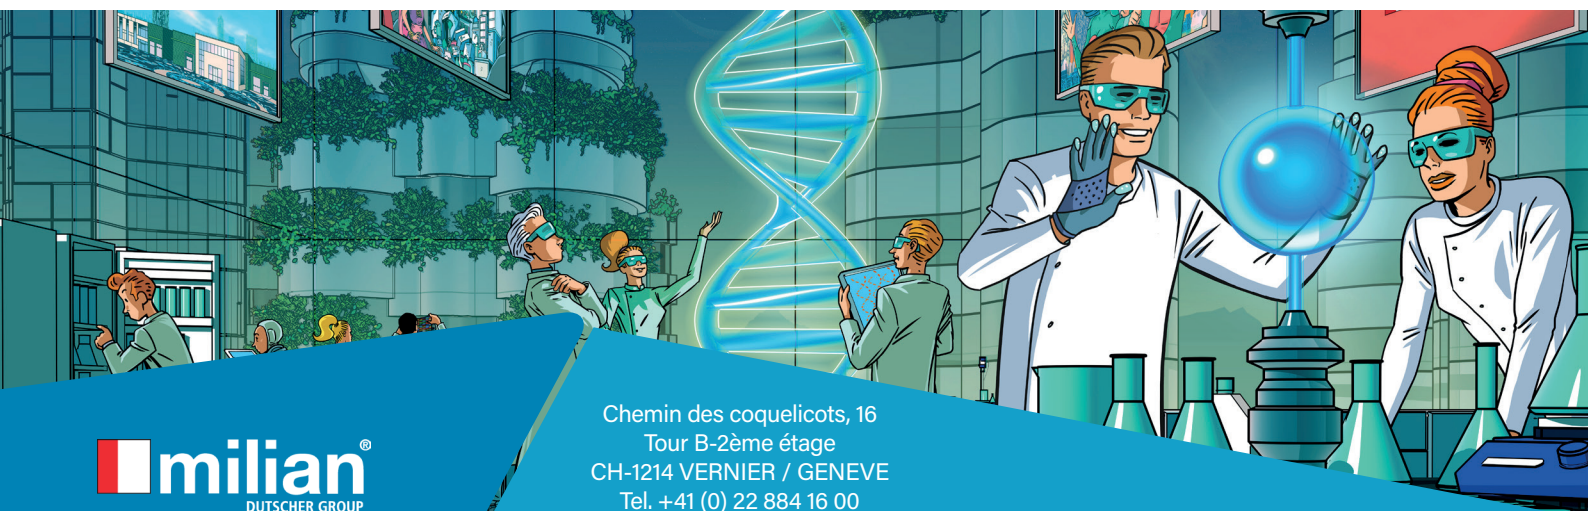

- Suitable for reflux and distillation
- Chemical-resistant and durable
- Long-term use up to 230°C
- Short-term use up to 400°C
- No water, no risk of flooding
- Easy to use, no hoses or water flow to control
- Can be used in vacuum / inert conditions
- Suitable for air-sensitive work when connecting
- Lightweight - less clamping required, ideal for angled ports
- Space efficient - no need to be near a water source
- Easy to clean - rinse with solvent/bath solvent
- Visibility - Can show condensation during use and contamination during cleaning
- Can be dried in an oven at standard temperatures (~120°C) or heat gun

## DRYSYN CLASSIC

### SINGLE-POSITION HEATING BLOCKS

- Made of anodised aluminium
- Chemical resistant and durable
- Reduces the risk of fire (no spills, no toxic fumes)
- Maintenance-free
- Consistent heating times
- Suitable for all hobs
- Clear visibility of reaction
- Heats up to 500°C

#### Versatile:

- Base with heat-resistant handles
- Base accepts a standard 1,000 ml round-bottomed vial
- Base fits all standard vials up to 25 ml
- Base fits all standard flasks up to 25 ml
- Adjustable feet for full compatibility with all hot plate stirrers
